### My Patricia

My Patricia shows like a much newer yacht than her 2003 Hull number indicates. She has had many updates and all major systems have been serviced recently. CAT just did a service and sea trial and said the engines are performing great. The Flag Blue awlgrip hull, varnished teak exterior and soft goods inside look great. Even the engine room shows like a much newer vessel. She has been a captain maintained vessel most of her life and it shows. She can cruise at an efficient 8-10 knots or run 20-24 knots when you want to get there fast. Originally delivered at the Marlow facility on Snead Island, Florida My Patricia has spent most of her time on the eastern seaboard and had come back to Marlow for service frequently. With 3 cabins with private heads, and overflow

bunk over the washer and dryer and a separate private crews quarters aft she is ready to take the family and guests for extended cruises. This 72C has the same interior volume of a 78E.
