Description

The MARLOW PROWLER 375 CLASSIC is a high-tech, high-quality yacht with the timeless lines of a commuter or picnic boat, and is the first in the new series of PROWLER express cruisers. With its sleek profile and its Jade Green and Oyster White coatings, the look is stunning. Its two-foot draft and 33 knot speed give you the ability to run to the Bahamas or other thin-water cruising grounds quickly and comfortably. The cockpit is innovative, with plenty of seating. The salon is large and open, with a queen berth on centerline forward. A fresh approach from a first-rate builder, the PROWLER is perfect for a couple cruising for a long weekend.

Total Power: 880

Accommodations

It takes a special kind of person to desire a top of the line yacht - he not only wants extraordinary engineering innovation, originality and vision, just as important is the doggedness and character of the builder to see it through. The search is over, ladies and gentlemen, the latest Marlow launch is one you'll be telling your grandkids about.

Meet the Marlow Prowler, a sinuous blend of beauty, performance and utility all contributing to form an enduring style you won't be able to resist. At a price you won't believe. When you own a Marlow Prowler you own what yachtsmen everywhere recognize as the finest piece of marine real estate there is. You own more than a boat, you own a reputation.

Convinced yet, skeptical one? Don't be. We don't try to pretend that better cosmetics are true innovations. We don't know of another builder who has come close to the quality of material and workmanship Prowler represents. Our proprietary RIVET system of production elevates composite yacht building to a level unknown by all but a few builders worldwide. We have no competition in workmanship, construction method, quality of materials or price.

Whether harbor hopping in New England, sunset cruising along the Gulf shore or lunching on Bimini, the Marlow Prowler will show you off at your best.

- Berth, Queen, Centerline forward
- Two hanging lockers with lined cedar wood
- Mattress, 6" foam, variable density
- Beveled mirrors, with teak frame
- Head /Shower
- Comfortable settee and table
- Exhaust blower, 12 volt
- Grohe faucet and shower

Galley

- Hidden in fine cabinetry above on main deck
- Condiment locker
- Wood countertop
- Microwave / convection oven
- Stovetop, electric
- Refrigerator/freezer
- Sink, stainless steel

Construction

Prowler Yachts are built at Norsemen Shipyard alongside the Marlow Explorer Raised Pilothouse Series, perhaps the most advanced yacht building factory on earth. Norsemen Shipyard is an environmentally conscious facility featuring the very best in advanced tools and machinery, computer systems and a talented workforce trained by some of the top master yacht builders in the world in every department. Due to the advanced construction techniques pioneered and proven by the Marlow Explorer Series, we are able to offer the interior and cockpit volume of a much larger yacht. This complex tooling and production method rids the yacht of space-robbing heavy wooden framing commonly seen. Replaced by composite sandwiches similar to high performance aircraft, racing yachts and race cars, the technique allows far greater interior volume while producing a much stronger and lower maintenance yacht.

Cat-like performance, highly advanced technology and the finest attention to detail have created another benchmark for excellence from Marlow Yachts that others could only attempt to emulate.

- Boot stripe, painted Awl-Grip
- Cabin soles and bulkheads, foam-FRP high pressure resin infused
- Epoxy barrier undercoat, three coat International system
- Gel-coated fiberglass exterior topsides
- Vacuum bagged and modified epoxy resin infused fiberglass construction
- Hull structural grid, FRP molded and foam cored
- Kevlar and engineered fabrics in lamination schedule
- Molded upper and lower guard with 316L SS rub rail
- Corecell foam cored hull
- Engineered composite monocoque structure

Electrical

- AC/DC distribution panels,12V, 110/220V
- 5 KW Onan generator 110/220V 422 hours
- Horn
- 2500W Inverter
- Engine Alarm panel, w/engine oil pressure and temperature, bilge pumps on, loss of cooling water and engine room lights on
- Batteries, Absorbed Glass Mat, with FRP boxes, lids and straps, 2 x 8D engine starting, 2 x 4D house
- Battery charger, auto,12V/50 amp
- Battery condition indicator
- Battery switch, disconnect
- Battery switch, emergency paralleling switch
- Courtesy lights, 12 volt
- Bilge pumps (3), automatic, 12 volt
- Bonding system
- Engine room blowers
- Engine room lights
- Engine gauges and instrumentation
- Engine start/stop single station with keys
- Fresh water system, pressurized
- Galvanic Isolator
- Holding tank discharge pump
- AC Power indicator light, reverse polarity indicator light, holding tank gauge, navigation lights
- Outlets, galley engine room & heads, GFCI Protection, 120 volt 60Hz boats
- Wiring, marine-grade tin-plated copper
- TV/Phone inlet, aft

Deck & Helm Area

- Raymarine E120 Chart Plotter
- Transom, teak, epoxy bonded
- Fresh water wash-down, fitting anchor locker
- Hatches, hinged w/gas cylinder lifts
- Scuppers, stainless steel
- Stern seat/storage box, molded with cushions
- Aft fold-up swim ladder
- Swim platform, FRP and teak
- Transom shower with retractable hose, hot/cold supply
- Companion sliding hatch, FRP, with lockset
- Danforth compass
- Electronic console, FRP with teak
- Engine inspection hatch, FRP
